Use the spec in your own tools

Download openapi.yaml and import it into Postman, Swagger Editor or any other OpenAPI-compatible tool, or generate a client from it. The description at the top of the spec explains how to set up OAuth 2.0 (3LO) access.

> This API is supported and actively developed, so it can change without notice. It builds on Atlassian's Forge App REST APIs (Preview). Send feedback to the Mria CRM team.
